

How Educ'Arte Simplifies Learning with Clear Step-by-Step Guides

Summary

Educ'Arte needed a faster and more efficient way to create manuals for its learning platform.

With FlowShare, they now generate structured, step-by-step guides automatically, reducing manual effort and making documentation easier, faster, and more consistent.

- ✓ Faster manual creation
- ✓ Reduced effort compared to PowerPoint workflows
- ✓ Easy and intuitive tool adoption
- ✓ Consistent, high-quality documentation

At A Glance

About Mohawk College

- Location: Ontario, Canada
- Size: 5,000 students per year, 2,500 staff
- Industry: Higher Education
- IT Scope: ERP transformation (Ellucian Banner)

Solution

- FlowShare for fast, click-by-click process documentation across departments
- Standardised SOP creation with AI-generated step-by-step instructions
- PowerPoint templates used to ensure consistent training materials
- Scalable rollout starting with 25 users, with plans to expand across the organisation

Key Challenge

- No standardised approach to process documentation across teams
- Training was inconsistent and time-consuming
- Knowledge scattered across employees instead of documented systems
- Budget constraints due to enrollment cuts required a cost-effective solution

Results

- Estimated 50% reduction in documentation time
- Faster creation of consistent training and onboarding materials
- Standardised look and feel across all departments
- Reduced dependency on individuals for knowledge sharing
- Strong foundation for scaling documentation across 2,500 staff

Challenge

Before using FlowShare, Educ'Arte created manuals manually in PowerPoint by taking and arranging screenshots step by step. This process required multiple stages, significant effort, and careful formatting, making it both time-consuming and difficult to maintain. As a result, creating documentation took longer, and achieving a consistent, high-quality layout across all materials was challenging. Supporting users effectively with clear and structured guidance was therefore more difficult.

Solution

To simplify documentation and improve efficiency, Educ'Arte introduced FlowShare to create step-by-step manuals automatically. The tool is used to explain platform features to teachers and students, covering everything from creating video clips to using interactive elements such as quizzes and mind maps.

With FlowShare, screenshots are captured automatically and turned into structured guides, significantly reducing the effort required to produce documentation. The tool is easy to use, requires minimal training, and allows the team to create consistent manuals quickly and efficiently.

**Faster than
PowerPoint**

**Short Training
Time**

Results

FlowShare has made documentation creation faster and more intuitive for the Educ'Arte team. Manuals can now be produced with significantly less effort, while maintaining a consistent structure and visual quality.

The short learning curve and ease of use mean that team members can quickly adopt the tool without extensive training. As a result, users benefit from clearer guidance, and the team can provide better support across the platform.

Overall, FlowShare helps Educ'Arte deliver practical, easy-to-follow instructions while saving time in everyday work.

Why FlowShare Fits Educ'Arte

Choose FlowShare

Built for Educational Platforms

Create clear manuals that help teachers and students understand and use digital learning tools effectively.

Faster Than Manual Documentation

Replace time-consuming PowerPoint workflows with automated step-by-step guide creation.

Easy & Intuitive to Use

Minimal training required. Teams can start creating documentation immediately without complexity.

Consistent Learning Experience

Ensure all users receive clear, structured, and visually consistent instructions across the platform.
